

Military spec wire.

Price :
£ 0.54
Catalog No. : **UBMILWIRE**
Availability : **Available**
Stock : **very high**
Rating :

Popular in Poland, a military telephone cable allows you to build up an extremely long wire type antennas Long Wire, Inv. L, or dipole for 160m. Dual cable allows you to split up and get two sections of the same length. Copper wire, reinforced with steel insert is extremely durable in high winds , frost, condensation, and the armies of birds. Interesting option for antennas with a long suspension. Sold per meter.
